Heart Shape Photo

Hand cut or use a punch or die to make heart shapes from the patterned papers and coloured cardstock in the kit. Draw a similar heart shape on a scrap of plain paper and cut it out. Use that as a template to draw around a heart shape on a photo and cut it out. Arrange the hearts and heart photo as shown in the sketch.

Filled Page Protector

Create a unique layout by filling it with confetti and sealing it with stitching.

- First cut the middle from a piece of cardstock. Write on the journaling down one side and place it inside a page protector. Fill the open space with confetti made from papers in the kit punched out with a hole punch. Stitch around the inside of the cardstock cut out shape to seal in the confetti.
- Cut out a title from cardstock or use the stickers attached to the front of the page protector. Stitch over the top to hold it in place. Do the same with the photo to finish the layout.
