

# Notepaper Gift Set Project Sheet

## Instructions

Print off 5-6 copies of the notepaper sheet and cut each piece out.  
Choose a favourite stamped image and stamp it at the top of each notepaper sheet.  
Add a little colour to the stamped images if you like.  
Next take a piece of corrugated cardboard and rub over some coloured ink then leave to dry.  
Take a stack of C6 envelopes, I've put 10 in my pack but you could put in more or less if you wish. Stack the notepapers on top of the envelopes and wrap up inside a clear cello card bag. Lay this over the corrugated card backing.  
Make a tag for your gift. This one I've made to match the stamped image from felt. Take one or two lengths of ribbon, string on your gift tag and then tie them around the stack to finish off your gift.
