

November 2011 Design Team Inspirations

Hi!

Welcome to the November extra inspiration! This month we have some fun winter inspired cards. The templates have been designed so they can be used for Christmas cards but can also be used for other occasions just by changing up the messages you add. The cute 'Winter Pals' designs can be used for any occasion too from kids birthdays to just sending someone a hug in a card to let them know you're thinking of them. Check out the cards that Kathy has made as extra inspiration for us this month and a little extra tip for decorating the insides of the shaped cards. There's a winter inspired kit available this month too 'Bundled Up' which you can get from the Crafty Templates store, <http://www.craftytemplates.co.uk> for just £6.50!

Have fun this month!

Extra Inspiration

In this month's set we have a few fun shaped card ideas. If you're a card maker who likes to decorate the inside of your cards with an insert sheet to add your greeting you can make a shaped insert sheet using the template in the same way you make your base card but with a sheet of folded paper instead.

Another way you can decorate the inside of your shaped card is to add some patterned paper to the inside of your card. Open out your finished card and glue a piece of patterned paper to the inside of on the side facing you. Cut out around the shaped edge then add your greeting with a stamp or using mini alphabet stickers then draw around the edge with a marker pen or ink around the edge with an inkpad. Here's the inside of the 'Winter Pals Bunny' shaped card decorated in this way:

Have fun decorating the inside and out!
