Antique Purse Shaped Card

Print off the antique purse template and cut it out, cutting around the outermost edge only. Fold a sheet of A4 card in half and place the template on it matching the dashed line (where it says fold line on the template) to the fold on your card then draw around it. Cut out the shape keeping the card folded to make your shaped base card.

Cover the front of your base card with patterned paper or decorate with stamps, paints, chalks etc. Next take the template again and cut off the frame part of the purse. Draw around onto a different colour of card or paper (using silver or gold looks good). Make the hole in the frame where indicated if you are adding a handle to your card. To make a simple beaded handle thread some beads onto a length of wire or string and thread the ends through the holes with a knot or just bend around if using wire. Add a finishing touch of glitter or inking to add depth to your card. Why not make a card using a velvet fabric as a covering and lace as decoration for a different look. You could also use bright funky colours and turn your antique purse into a modern funky one!

Have fun!

This project is for adult use only as it involves using cutting tools and using materials that may ruin clothing. Crafty Templates or anyone associated or manufacturers mentioned in the instructions can not be held responsible for any damage to personal clothing or property that may arise from the use of these projects and templates. Please read the full terms and conditions of use, which you can find on www.craftytemplates.co.uk. You can also find contact details here if you need any further help with your templates or ideas for your cards.

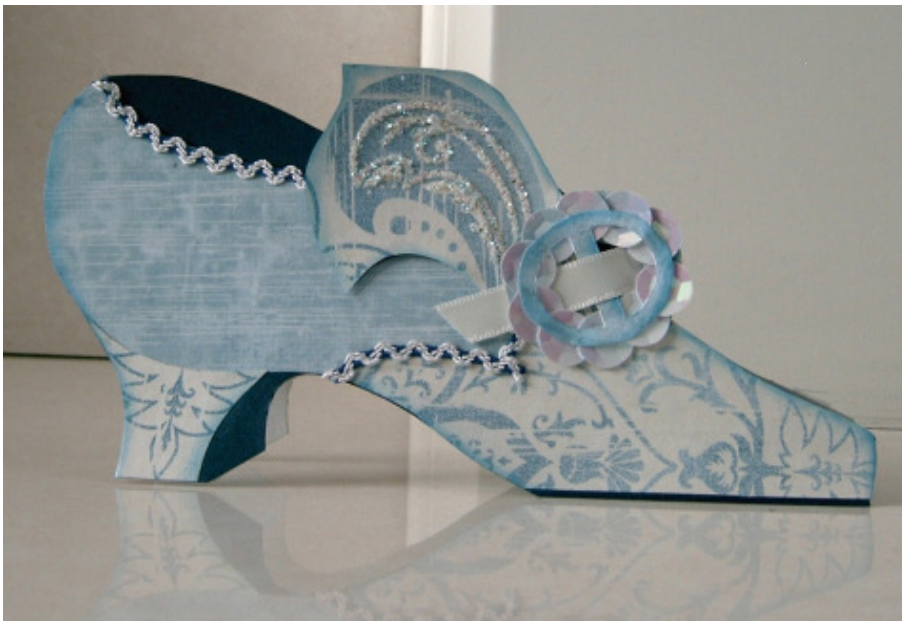

Antique Shoe Shaped Card

Print off the antique shoe template and cut it out cutting around the outermost edge only. Take a piece of A4 card and fold it in half (alternatively you can use a prefolded card blank). Match up the dashed line on the template to the fold on your card, draw around the shape and cut it out so you're cutting through both sides of the folded card together to create your base card shape.

Take the template again and trace off the detail on to the front of your card. Decorate with patterned paper or add colour and pattern with paints, chalks and stamps etc. Cut out the buckle shape from the template and draw around it onto some more card then attach to your card looping through a piece of card or paper to create the look of the buckle.

You can use the topper size shoe to create a card in a similar way but using it as a topper rather than a shaped card.

Have fun!

This project is for adult use only as it involves using cutting tools and using materials that may ruin clothing. Crafty Templates or anyone associated or manufacturers mentioned in the instructions can not be held responsible for any damage to personal clothing or property that may arise from the use of these projects and templates. Please read the full terms and conditions of use, which you can find on www.craftytemplates.co.uk. You can also find contact details here if you need any further help with your templates or ideas for your cards.

Punky Goth Boot Shaped Card

Print off the goth boot template and cut it out cutting just around the edge. Take a piece of A4 card and fold it in half (alternatively you can use a prefolded card blank). Match up the dashed line on the template to the fold on your card, draw around the template shape and cut it out so you're cutting through both sides of the folded card together. Now you have your basic shaped card. Take the template again and cut off the sock part on the template and cut out each stripe from alternating colours of card or paper. Rearrange onto your card and stick down. Now take the boot part of the template and cut off the bottom sole part of it. Draw around this onto black card or paper and stick down on your card. Finally draw around the remaining boot shape on to more card and trace or draw on the detail then stick down on your card. You can make holes and add eyelets and laces to your boot if you wish or why not make a different card and turn your punky goth boot into a builders or walkers boot just swapping the black and bright colour for brown and khaki greens?

Have fun!

Cute Purse Shaped Card

Print off the cute purse template and cut it out cutting around the outermost edge only. Take a piece of A4 card and place the template on it, draw round the outside and mark off where the dashed line starts and finishes. Take the template away and score along where you've marked the dashed line. Cut out your card shape and fold along the scored line.

Cover both the front and back of your card with patterned paper or decorate however you like. Cover each end of your purse card where the frame starts on the template (look on the template for where it should be) with a different colour of card or paper to create your frame. You can add a handle if you wish or leave it as I've done in the sample below as a cute little clutch purse. Have fun!

This project is for adult use only as it involves using cutting tools and using materials that may ruin clothing. Crafty Templates or anyone associated or manufacturers mentioned in the instructions can not be held responsible for any damage to personal clothing or property that may arise from the use of these projects and templates. 60's Purse Shaped Card

You can never have enough purse templates so here's yet another one for this month! This one is nice and simple but super stylish! It would look fab made up in black and white but I've picked out bright Pucci style printed paper in the sample.

To make the card, print off the template and cut out the base purse shape and the handle. Fold a piece of A4 card in half and match up the dashed line on the purse shape to the fold, draw around and cut out, keeping the piece of card folded to create your shaped base card. Now with the handle you can simply cut it out from the surplus card and decorate the same as your base card or you can make one like the sample and simply wrap decorative coloured fibers around the handle shape. When you've finished making your handles (you'll need to make one for the back and one for the front) attach them to your base card so each edge almost touches the corners of the purse shape. You can ink around the edge of your purse shape if you like and add further decoration. Have fun!

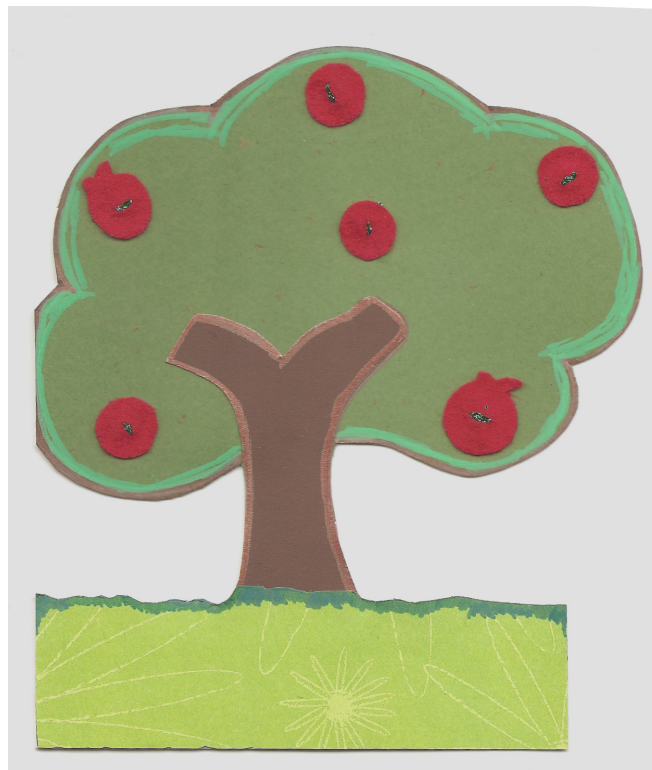

This project is for adult use only as it involves using cutting tools and using materials that may ruin clothing. Crafty Templates or anyone associated or manufacturers mentioned in the instructions can not be held responsible for any damage to personal clothing or property that may arise from the use of these projects and templates. Apple Button Tree Shaped Card

Autumn is almost upon us so there had to be an autumn card somewhere in the September set! I think this card is really cute and would make a fun different birthday card.

Print off the tree template and cut it out cutting around the outermost edge only. Take a piece of A4 card and fold it in half (alternatively you can use a prefolded card blank). Match up the dashed line on the template to the fold on your card, draw around the shape and cut it out so you're cutting through both sides of the folded card together. Now you have your shaped base card. Cut the tree trunk and the grass part from your template and draw around them on to corresponding coloured card. Cover the whole of your base card with green card and then stick on the tree trunk and finally the grass.

To make the apple buttons cut out some of them from the template and draw around them onto red card and cut out or cut out the shapes from felt as I've done in the sample then stitch on to finish.

This project is for adult use only as it involves using cutting tools and using materials that may ruin clothing. Crafty Templates or anyone associated or manufacturers mentioned in the instructions can not be held responsible for any damage to personal clothing or property that may arise from the use of these projects and templates. Please read the full terms and conditions of use, which you can find on www.craftytemplates.co.uk. You can also find contact details here if you need any further help with your templates or ideas for your cards.

Cute Reindeer Shaped Card

This is the first of the Christmas templates for 2007!

To make your card print off the reindeer template and cut out the body and the head. Fold a sheet of A4 card in half to place the body part of the template on it, matching the dashed fold line to the card fold. Draw around the shape and cut it out, keeping the card folded. Cover the front of your card with brown card or another colour if you wish. Draw around the head shape from the template on to more brown (or other coloured) card and cut out then attach to the front of the body so it slightly overlaps the top. Finally add on his eyes and nose and colour in his hooves to finish. Have fun!

This project is for adult use only as it involves using cutting tools and using materials that may ruin clothing. Crafty Templates or anyone associated or manufacturers mentioned in the instructions can not be held responsible for any damage to personal clothing or property that may arise from the use of these projects and templates. Please read the full terms and conditions of use, which you can find on www.craftytemplates.co.uk. You can also find contact details here if you need any further help with your templates or ideas for your cards.

Funky Christmas Tree Shaped Card

There are two sizes to use on this template a small one and a large one but both work in the same way, you just have to decide which to use. The smaller one could be used on a larger card in twos or threes or singularly on a smaller card.

Print off the tree template and cut out the main tree shape. Draw around onto patterned paper and cut it out. Attach to the front of a coloured card blank. Next take the template again and cut out the star and the bucket. Draw around these onto more card or paper, cut out and attach to your card. You can add more decoration to your card as you like. Maybe make up the tree in a plain colour and add decorative trimmings or make a glittery tree or just a plain white on and a glittery star?

Have fun!

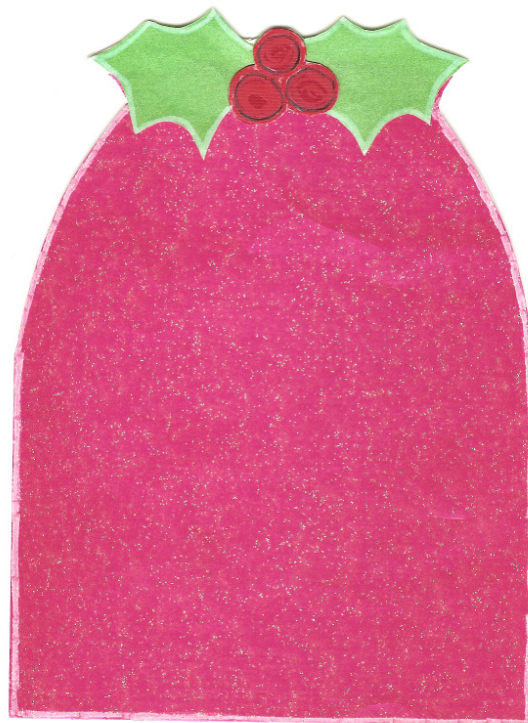

This project is for adult use only as it involves using cutting tools and using materials that may ruin clothing. Please read the full terms and conditions of use, which you can find on www.craftytemplates.co.uk. You can also find contact details here if you need any further help with your templates or ideas for your cards.

Large Christmas Pudding Shaped Card

Print out the pudding template and cut it out around the outside edge. Fold a piece of A4 card in half and place the template on it matching the dashed fold line on the template to the fold on your card. Draw around and cut out the shape keeping the card folded to make your base card. Cover the whole of the front of your card with patterned or coloured paper or in glitter paper as I've done in the sample. Alternatively you can decorate it any other way you like. Cut out the holly from the template and draw around on to some separate coloured card and attach it to the front of your card matching the top edge to get it in the correct place.

You can also cut out the berries and attach those on top too or colour them in directly over the top.

That's it all done! Why not make up lots of funky puds just by changing the colour and pattern of the paper you use to decorate them. You could also reduce the size of the template you print out to make a smaller top-per size shape. Have fun!

This project is for adult use only as it involves using cutting tools and using materials that may ruin clothing. Crafty Templates or anyone associated or manufacturers mentioned in the instructions can not be held responsible for any damage to personal clothing or property that may arise from the use of these projects and templates. Please read the full terms and conditions of use, which you can find on www.craftytemplates.co.uk. You can also find contact details here if you need any further help with your templates or ideas for your cards.

Snowman Shaped Card

Print off the snowman template and cut out both pieces of him. Fold a piece of A4 card in half and place the snowman body on the card matching the fold line to the fold on the card, draw around and cut out.

Now you have your shaped base card. Cut out his head from the remaining card and add his face detail. Ink around the edges of the head and the body, which you can also cover with decorative paper. Draw on his body shape from the template onto your card with black pen. You can add as much or as little decoration to him as you like. Why not create a fluffy white snowman or a silvery blue glittery one?

Have fun!
